

# Quantum Careers Pathway Forum

## Why Sponsor?

# About QED-C

We are a global coalition of professionals, businesses, and public institutions that want to harness quantum technology for the greater good. This incredible blend of doing good and driving economic growth draws our members together. The mission of QED-C is to grow the quantum economy through community-building and collaboration.

# Event Overview

The Quantum Career Pathways Forum is a **full-day event** that introduces students to careers in quantum information science (QIS). Featuring **keynotes, panels, and focus sessions**, the forum covers areas like quantum hardware, software, and sensing.

It brings together leaders from industry, academia, and national labs to share insights, recruit talent, and discuss real-world applications. The day **concludes with a career fair**, offering students direct access to employers and career opportunities in the quantum field.

# Mission

The Quantum Career Pathways Forum strengthens QED-C's mission of helping members and the broader quantum ecosystem engage directly with emerging talent, showcase career opportunities, and build their workforce pipeline. It positions quantum companies and institutions as thought leaders while advancing national conversations around quantum careers and skillsets.

# Impact

For **students**, the forum offers:

- Q Exposure to the range of roles in QIS across sectors
- Q Clarity on skills and educational pathways needed for quantum careers
- Q Access to internships, fellowships, and job opportunities
- Q Networking with leaders and recruiters in the quantum space

# Impact

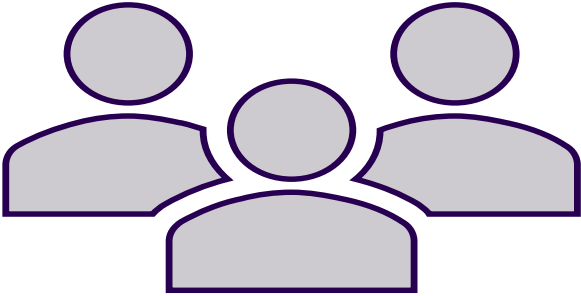

For **organizations**, the forum offers:

- Q Access to a diverse pool of emerging talent
- Q Opportunities to showcase career pathways, programs, and R&D
- Q Connections with other institutions advancing the quantum ecosystem
- Q A platform to shape national workforce development discussions

QED-C members receive **10% off** listed price
